## Steam Appears Off in Liverpool and Ginning Estimate Helps in Liquidation.

Tuesday afternoon, Jan 6 Just what caused the liquidationhiverpool today was not definitely determined, but it was attributed in a measure to some private figures on ginning to Jan. I, the figures being 10.470,000 hales to that date, 637,000 for the period compared with 493,000 for same time last year. The report was regarded as somewhat bearish on the period ginning, although some contended that the total was noything but hearish. The foreign market closed bregular and unsetfiled and from 40 to 15 points net to the bad, having resovered some from the lowest levels. The marrowing of differences between the mear and distant positions oven there was regarded as reflecting the pussing of the keenest of demand for immediate supplies and an appreciation of the probabilities that the distant months have been too cheap.

Liverpool spots were marked off C points, fully middling to 30,61d, with siles 10,000 bales, but some after the distant months have been too cheap.

Liverpool spots were marked off C points, fully middling to 30,61d, with siles 10,000 bales, but some American. Manchester advised that cloths were fitm and business in yarms fair.

First prices on this side were lower terrained; but it was attributed in

First prices on this side were lower because of poor cables and the ginning figures. March was 36.45, a dip over night of 38 points. In the first few minutes the option sold as high as 16.85 and as low as 36.75, working up asome after the initial speil of nervousness, but later weakening materially.

The traders were a bit leary of the outcome of the conference between the federal reerve officials and bankers, and it was to rports therefrom that credit was given for the liquidation later in the day, which sent March off to 25.58, a drop of approximately 100 points from the opening. It was said that Gov. Harding of the board made some pisting and emphatic statements regarding the uses of money for speculative purposes and that bankers were urged to restrict leans to essentials in the effort to check the rising tide of prices and avoid future dangers. The stock market was more directly affected and reacted, having some influence on colton, although more sober thought brought conclusions that cetton was too attendy in the next and spits too much over contracts to be seriously hurt by measures that might be adopted.

There was recovery from the low invelocities discontinued in the latter nart of the session. March recovered to \$4.55, and there seemed to be little disnosition on either side to attempt much.

The news from the spot department

which are firmly held. However, the day's business was somewhat affected by had weather over the belt, although the rains are expected to further interput picking of the late crop. The independent attitude of those who hold the unsold part of the eron does not lend encouragement to hope of any material easiness in contracts, which continue at discounts compared with sucts. Futures closed 70 to 89 points lower tone harely steady.

New Orieans closed 28 to 85 points off: one steady. Sucts were unchanged middling at 41c and sales were 2.514 hales.

Liverpool is due to come 18 to 20 points lower.

In the local market sales were 2,800 bales and quotations were off 50 points: iddling at 40c.

Cincinnati Man Discovers
Drug That Loosens Corns
So They Lift Out.

Local druggists are having a tremendous call for freezone, the drug which is said to shrivel a corn, root and all. A few drops applied directly upon a tender, aching corn relieves the sorences at once, and shortly the entire corn, root and all. lifts right out with the fingers.

This new drug is being dispensed at small cost in quarter ounce bottless, which is sufficient to take off every hard or soft corn from ene's feet. It is a sticky substance which dries at once and does not inflame or even irrisate the surrousding tissue or skin. There is no excuse for anyone inviting death by infection or lockiaw from cutting their corns now.

New Orleans.—Interesting letter from Liverpool says: "Yarn market strong and prices still advancing. Buyers from Egypt, Syria, South America, India, and Chilia have had to pay increased prices for cloth, We think exchange has possibly touched the lowest point, as exports are increasing compared with imports. The high prices, which are easily obtainable for cotton goods for export, probably bring into the country double as much as the value of the raw material from which they are made. A bale of cotton which costs \$200 in the U. S. could be sold for export when made into cloth for more than the value of \$400 so that any loss on exchange on the so that any loss on exchange on import, is more than offset by profit on the export,"—Kofler.

"HOME OF SATISFACTION"

(SATISFACTION GUARANTEED ON USED CARS)

The Paige Company of Memphis, Inc., will guarantee every used Paige carthat we sell. We will assume responsibility for defective parts and give purchaser every assurance of satisfaction. This is something new in the automobile industry—a meet radical change from the policy employed by all dealers in used cars.

Heretofore, the purchaser has assumed all risk. He has had to depend on his own judgment or "luck." He could never be sure he would not have a big repair bill tacked on the original purchase price. We are going to change this. We are going to change this. We are going to change this would not have a big repair bill tacked on the original purchase price. We are going to change this. We are going to change this would not have a big repair bill tacked on the original purchase price. We are going to change this would not have a point to change this would not have a point to guarantee you will be satisfied. We believe this only fair—that the man who spends his money for a used car is entitled to the same attention and consideration that is given to the purchaser of a new car.

These cars have been repainted and equipped with new tires.

Come down and pick out your car. We'll tell you everything we know about it.
